

CHAIRPERSON'S MESSAGE

Our university is coming out with another issue of the flagship journal, Journal of Indian Research.

The current issue contains essay from a serving IPS officer in the state of Assam, an empirical study on cultural globalization in the city of Dhaka, study on anti-concern efficiency of silibinin found in the milk thistle plant, novel antenna for 5G network and use of ICT in education sector. The papers are varied and useful for policy makers as well as researchers. I compliment the editorial team for carrying the issue in spite of several limitations. I take this opportunity to invite papers carrying novel, workable ideas for consideration of the editorial Board. A river can not flow smoothly if streams get blocked. The scholars and students are the streams and the water of scholarship should not dry down. For maintaining the quality of journal, the catchment area of scholars ought to widen.

Kindly do send well- researched papers at jir@mewaruniversity.org.

Wishing the academic community Happy Hindu New Year (V.S.2079)!

Dr. Ashok Kumar Gadiya
Chairperson, Mewar University
